

## For Immediate Release

### SRB EXPANDS ITS STUDENT INFORMATION SYSTEM MARKET SHARE THROUGH MIG ACQUISITION

Expansion fuels opportunity for MIG's North American growth.

May 17, 2010 Markham ON Canada - **SRB Education Solutions Inc.** (SRB), provider of a comprehensive range of K-12 software solutions, announced today that through the purchase of **Management Information Group** (MIG) it has strategically expanded in the broader North American Student Information Management market.

"We are extremely pleased to add MIG and their high-quality **SIRS** and **SchoolLogic** Product Suites to our solutions portfolio," stated **Steve Thompson, President & CEO of SRB**. "Our commitment to MIG clients both in the United States and Canada is to continue to build on, and support MIG's core offerings including both SIRS and SchoolLogic." Mr. Thompson went on to say, "Adding a proven solution that complements our current offerings was an important consideration in finding a suitable partner. Clients of MIG and SRB now enjoy integration possibilities at many points within the SRB family and the larger StarDyne Technology group.

"SRB brings StarDyne's Triple Bottom Line focus to the MIG offering," Mr. Thompson explained. "StarDyne sets the bar very high for employee satisfaction, customer satisfaction and financial satisfaction which form the Triple Bottom Line metric. Regularly measuring these results ensures our business strength."

"We are all very excited by the opportunity this partnership represents," agreed **Steve Khan, General Manager of MIG**. "With the financial and business strength of SRB, MIG can focus on the strength of our product suite while leveraging the increased market opportunities within the SRB family. Our access to technical, marketing and financial resources has increased significantly, which will translate into even better products and service for our customers."

"SRB's purchase of MIG represents another milestone in StarDyne Technologies' strategy to build a strong presence in the North American K-12 education sector," added **David Burke, CEO of StarDyne Technologies Inc.** "This acquisition also strengthens our presence in the local government sector as MIG serves more than 60 local governments. We are very pleased with the wealth of knowledge and skills that MIG brings to the StarDyne family."
